Since 1996, we have been in mentoring and supporting learners in a holistic environment from age group of 3 to research scholars. Our Pre-School / Kindergarten (for the 3- to 6-year-olds) provides a solid foundation for future learning and a holistic learning experience that promotes socio-emotional, physical and cognitive development. Carefully planned learning activities ensure that each child actively participates in guided inquiry and self-discovery.

Pre-primary education gives children a solid foundation upon which all learning depends, making every stage of education that follows more efficient and more productive.

In 2013, the Government of India adopted the National Early Childhood Care and Education (ECCE) Policy in recognition of the importance of investing in early childhood development—including early childhood education (ECE). The NEP 2020 recommends various models for implementation of quality ECCE.

Zeal International Preschools has assigned a team of experts to find the curriculum gaps and based on the research has designed a customized curriculum along with proper monitoring system for its effective implementation.

Our Uniqueness

- A Good Reputation
- Safe, Child friendly and Nurturing Environment
- Well Trained, Passionate and Caring Teachers
- Active Learning Pedagogies
- Large Play Area
- Real-time learning
- Good infrastructure

Our Approach

Our approach is futuristic, so we have designed our curriculum to cater to holistic development. We celebrate diversity and respect individual differences, so we create an inclusive environment whereby culturally relevant curriculum has been incorporated. Our emphasis is on self-exploration, experimentation and problem solving through Play-Based learning. Children are engaged in multi-sensory learning by Hands-on activities thereby the focus is on cognitive, social, emotional, physical and creative development in our holistic curriculum. We create a nurturing environment that is safe, stimulating, and conducive to learning. Since we acknowledge individual differences, we accommodate their learning styles and pace by using positive reinforcement and usage of age-appropriate technology that supplements learning without replacing traditional activities.

Sensorial Skills

- Visual
- Acoustic
- Tactile
- Olfactory
- Gustatory

Language Skills

- Phonetics and Phonology
- Semantics
- Syntax and morphology
- Pragmatics

Mathematical Skills

- Numbers and Sequence
- Basic Arithmetic Operations
- Logical Operations
- Pattern and Shape Recognition
- One to one correspondence

Cognitive Skills

- Searching and Sorting
- Attention
- Memory
- Puzzles and Reasoning
- Critical Thinking
- Brain Gym

Creative Skills

- Dance
- Drama
- Music
- Role Play
- Art and Craft
- Play dough activities

EVS

- Surrounding
- Plant and Animal Kingdom
- Surveys
- Projects
- Field trips
- Community service

Socio-Emotional Skills

- Self-Acceptance
- Self-Regulation
- Self-Awareness
- Sense of Belonging
- Relation Building
- Gratitude and Respect

Excursions and Field Trips

Field trips also help in improving children's social and interactive skills. Taking part in field trips is one of the best ways to make learning fun for children outside the classroom. They also help in allowing them to learn, absorb and experience things practically.

- Bakery
- Fire Station
- Grocery Store
- Home Improvement Store
- Library
- Nursing Home
- Park
- Animal Shelter

Celebrations and Activities

To achieve the desired learning outcomes, we at Zeal International Preschools, conduct various activities, competitions and celebrate days and festivals.
